

## Tracker mounting instructions – Optimist

Please mount the tracker on the floating device at the rear of the boat (as shown on the photo). The tracker will be on and operative when you receive it. If return of the tracker is required during the event you will be notified via the ONB.

Pressing the button will generate an SOS alert. Only press it if you are in distress.

## Watch the tracking

Go to [www.tractrac.com](http://www.tractrac.com) to watch the tracking live or in replay.
